

Only with a Buyer's Agent are You Are Represented in the Transaction!

Having someone working for you will make all the difference in the world. You have a full-time job, how else could you afford this property? The agent will be there for you when you can't. The difference between a Listing Agent and a Buyer's Agent is huge! The listing agent works for the seller – exclusively. Not having someone represent your best interests while you negotiate against a trained professional can end negatively to say the least. Not only does a Buyer's Agent make good sense,

Buyer's agency doesn't cost anything.

That's right. The commission paid to the Buyer's Agent is already factored into the listing agreement between the seller and the Listing Agent.

Only a Buyer's Agent can guide you on offers and price negotiation. He or she will also point out where you are exposed and when you can lose your deposit. Only a Buyer's Agent can negotiate the findings of the home inspection with you. From researching properties to closing, **your** Buyer's Agent will be there throughout the process.
